Oil from nature...

Decking Oil was developed for the treatment of wood in outdoor areas. It consists of natural raw materials that offer a wide range of benefits. This special oil is available in various colour shades whose durable colour pigments guarantee high UV resistance. Water-repellent natural resins protect against extreme weather conditions. Vegetable oils and natural waxes adapt flexibly to the needs of the wood and result in an even, harmonious finish. They revitalise the natural structure and deepen the tone of the treated surfaces. This unique, hard-wearing and open-pored wood finish is the result of an optimised composition of natural raw materials.

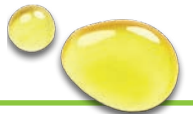

BIOFA Decking Oil 3753, 37531

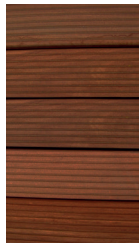

- Crystal Clear Ingredient Declaration (www.biofa.de)
- Made from natural raw materials
- Colorless 3753 und transparent colored 37531
- Waterproofing
- Refreshing
- Easy to work with
- Penetrates deeply
- Dirt and water repellent

Applications:

BIOFA Decking Oil protects and maintains terraces, wooden decks, screens and other outdoor wood. It is suitable for numerous types of wood, such as larch, douglas fir, robinia, oak, bangkirai, eucalyptus, teak etc. as well as for pressure-impregnated pine, douglas fir and cedar. The colored decking oil also protects these precious woods from strong UV radiation.

Teak Oil for all woods 3752

Basic treatment and care for weather-stressed garden and patio furniture made of teak and other tropical woods, softwoods and hardwoods.

- Crystal Clear Ingredient Declaration
- Made from natural raw materials
- Colorless and open-pored
- Easy to maintain
- Hard-wearing
- Dirt and water repellent

BIOFA Teak Oil is a colorless blend of natural oils and resins. It revitalises and intensifies the natural structure and tone of the treated surfaces. The oil produces an open-pored, semi-glossy, easy-to-maintain surface that protects the wood from the weather.

3752 contains max. 250 g/l VOC.

Terrace Cleaner 2019

For decking surfaces made of untreated or oiled wood, screens, garden furniture, pergolas etc. as well as for plastic, stone, concrete and paving slabs.

- Crystal Clear Ingredient Declaration
- Emission-free and low odour
- 98% renewable and mineral ingredients
- formaldehyde and phosphate-free
- Removes stubborn dirt
- Prevents green deposits

BIOFA Terrace Cleaner is a highly effective concentrate for quick and thorough but gentle cleaning of dirt and green deposits.

2019 contains max. 0 g/l VOC.

1 litre is sufficient for approx. 28 - 40 m²

Wood Grey Remover 2089

For decking surfaces, garden furniture, decks, facades made of untreated or oiled hardwood or softwood and similar wooden surfaces in outdoor areas.

- Crystal Clear Ingredient Declaration
- Made from natural raw materials
- Low emission
- 95% renewable and mineral ingredients
- Refreshing
- brightening

BIOFA Wood Grey Remover cleans, refreshes and brightens greyed wood, restoring its original colour and natural, beautiful character. The grain of the wood is clearly emphasised again. Its gel-like consistency allows it to penetrate the wood well.

2089 contains max. 20 g/l VOC.

1 litre is sufficient for approx. 8 - 10 m²
