Universal Primer 1440, fixative for wall paints

- colorless
- based on potassium silicate
- saturating
- stabilising
- Without added preservatives and biocides

Attention

Shades of red arouse attention and drive. They are attractive and important and harmonise with a strong, slightly reddish shade of blue. A calming grey and a warm golden brown balance out the primary colours red and blue. These complementary colours are classic and convey a sense of understanding.

Joy in life

Cheerful, bright colours such as pink, yellow and light green convey a zest for life and give us a feeling of vitality. These stimulating colours are balanced by calming pastel shades such as a light blue and a warm off-white. The „joie de vivre“ colour combination creates a positive environment in which you never get bored.

Mysterious

Every now and then, we are happy to escape the present and immerse ourselves in a somewhat more mystical world. The combination of violet tones and a dark brown makes us curious. In combination with a friendly green-blue and a light yellow-brown, this colour combination has a pleasantly mysterious effect.

Nature lover

The natural, warm and grounded shades of the „Naturfreund“ colour world demonstrate a conscious, sustainable life in which there is no room for artificially coloured things. Intense and inspiring life flows through the room. All colour combinations are possible in this warm-looking world of colour. It comes alive through the colourful mixture and is emphasised by a creative mix of old and new, nature and technology.
